

# INTRODUCTION

This is a collection of the custom Ars Magica spells written on the Iron-Bound Tome blog ([ironboundtomewordpress.com](http://ironboundtomewordpress.com)). As a work of enthusiastic fandom for the Ars Magica roleplaying game it will contain errors and also my own perspective for the game. I can only apologise if the material does not always suit your stories and say in all seriousness Your Saga, My Vary.

The spells are inspired from a range of sources, including the core rules supplied guidelines which were not written and named spells, discussions in-play and in forums, and my own pondering or imaginations. Many of the spells use implied guidelines which are extrapolated from the existing rules, and more than a handful use new guidelines which were invented to cover a gap in the spell rules. When originally posted all the spells were encapsulated in blog posts discussing their power levels and the rationale for use. This material is superfluous to the spell descriptions themselves but may be needed to understand why a spell is designed in a particular manner.

This work does not intend to infringe on the copyright or intellectual property of anyone, especially the folk at Atlas Games. Where possible I have given credit to the ideas and sources in the blog post which introduced the spells.

I sincerely hope the material is interesting and useful.

Requisite: Animal, Herbam, Terram

This spell uses the raw materials on hand to physically repair a damaged human or animal corpse back to basic function. Spell requisites allow for a variety of miscellaneous materials to be used in the reconstruction of a corpse.

Bones are pinned or replaced, flesh padded out, and limbs reattached, wounds or skin is stitched back together.

It is important to note that ReCo and ReAn based animation spells will work on skeletal remains so there is no real requirement for a corpse to be fleshed out.

A finesse check determines the quality of the repairs, with 12+ required for a high quality outcome, although a 6+ will allow the base materials to be added into the target corpse.

Suitable raw materials must be on hand for the repair and will determine the appearance of the corpse afterward.

*(Base 3, +1 Touch, +2 Group, Terram requisite free, Herbam requisite free, +1 Animal requisite targets)*

### LEVEL 20

#### Assembly of the Monstrous Humanoid Fiend IBG

R: Touch, D: Momentary, T: Group

This spell constructs a range of prepared corpus materials into a large multi-limbed fiendish looking monster. A set of base raw ingredients must exceed the volume of the finished form and this is best achieved by having at least one reasonably complete human corpse and many extra components of various types.

The default configuration for the fiend is a size +1 humanoid with four arms, reinforced limbs and torso, sharpened teeth and claws, and a bone carapace over the body. The appearance and construction of the final form can be altered by the caster.

A finesse check determines the quality of the construction, with 9+ required to form the basic construct and a 12+ for a high quality outcome.

The additional strength of materials adds a +2 bonus to the soak score of a typical animated corpse. The corpse may also wear and wield armor and weapons.

If the optional group combat rules are used in the saga, then the additional limbs allow the animation to function as if it is an additional combatant in an untrained group.

*(Base 3, +1 Touch, +2 Group, +2 complexity)*

#### Blind the Ogling Horde IBG

R: Voice, D: Diameter, T: Group

Causes the group's eyes to close for the duration of the spell.

*(Base 2, +2 Voice, +1 Diameter, +2 Group, +1 larger group up to 100 members)*

### Forcing the Statue of Man IBG

R: Voice, D: Diameter, T: Individual

The spell holds the target motionless for two minutes, during which time they cannot move at all. This prohibits all physical movement such as talking, spell casting, and even changing the direction they are looking.  
(Base 5, +2 Voice, +1 Diameter)

### Rampart Against the Common Man IBG

R: Touch, D: Ring, T: Circle

Creates a circle through which no ordinary (say protected by Parma Magica or otherwise resist the spell) person can cross or affect those within the circle.

Aside: Ward Against the Curious Scullion was errata-ed to use a base effect of 15, which is incredibly out of alignment with the other baseline effects in Rego Corpus and the other wards. In hindsight I'd call this a barrier or rampart instead of a ward and say it stops direct physical manipulation instead of using the phrase Ward and inheriting all the angst and confusion that comes with how wards may be implemented within a story. My intent was a barrier, and not at all to stop actions of humans working in an intelligent manner.

(Base 5, +1 Touch, +2 Ring)

### The Buoyant Grog IBG

R: Touch, D: Sun, T: Individual

The target is moved slowly in any direction the caster desires horizontally or vertically, as fast as smoke rises. The spell affects targets up to size +1 and the caster must concentrate to alter the movement. Heavier targets move more slowly.

(Base 5, +1 Touch, +2 Sun)

### The Obedient Hand IBG

R: Touch, D: Concentration, T: Individual

Requisite: Intellego

This spell allows a severed hand to be held against the stump and animated that hand as if it were a normal complete limb. The Intellego requisite allows the hand to respond in an intuitive manner to the needs of the body it is attached to.

(Base 4, +1 Touch, +1 Concentration, +1 fine control, +1 Intellego requisite)

## LEVEL 25

### Assume the Dominant Sentence IBG

R: Touch, D: Moon, T: Individual

This spell allows the caster to directly control a target touched, and is designed for use with an animated corpse but will function with a living target as well.

To maintain control beyond their reach the caster should have an arcane connection to the target, so it can move beyond his presence and still be controlled. The caster can pause and resume the control of the target.

(Base 4, +1 Touch, +3 Moon, +1 fine movements)

### By Will Alone IBG

R: Personal, D: Sun, T: Individual

This spell grants the Magus the power to move their body through the air, controlled by thought at up to speeds of 40 miles per hour. Unlike the Creo Auram spells hovering in place with this spell is as simple as any other flight. The Magus must concentrate to control when and how fast they fly, and may elect to halt their thought movement, even while the spell remain active (effectively the Magus elects to not move using the spell). Finesse rolls are required for complex maneuvers.

Note that the spell will continue in a manner last instructed, so the caster best be wary of distractions and mishap.

(Base 15, +2 Sun)

### Circle of Walking Servants IBG

R: Touch, D: Ring, T: Circle

Requisite: Mentem

Turns all corpses in the circle into a nearly mindless servants that can follow your simple verbal commands faithfully but unimaginatively.

Unless the corpses are preserved with Charm Against Putrefaction or the equivalent, the bodies will decay normally, but even a skeleton can be animated.

(Base 10, +1 Touch, +2 Ring, Mentem requisite free)

### The Buoyant Squad IBG

R: Touch, D: Concentration, T: Group

The target is moved slowly in any direction the caster desires horizontally or vertically, as fast as smoke rises. The spell affects targets up to size +1 and the caster must concentrate to alter the movement. Heavier targets move more slowly.

(Base 5, +1 Touch, +1 Concentration, +2 Group)

### The Vicious Bones of Man IBG

R: Touch, D: Momentary, T: Individual

This spell projects a piece of a non-living human body toward a target, inflicting up to +20 damage.

It is probably most often cast on prepared bone implements.

The projectile is accurate to 20 paces and requires a successful Finesse roll to hit the target. As the object is flung by spell rather than guided, the effect is not influenced by Magic Resistance.

(Base 20, +1 Touch)

## LEVEL 30

### Animation of the Creeping Hand IBG

R: Touch, D: Sun, T: Individual

This spell grants an unnatural motion and dull intellect to a severed part of a human body so it may perform tasks as commanded by the caster.

The body part is granted the ability to follow very simple instructions, and does so unimaginatively.

The spell is commonly used on the severed hand of thief, but might be used on any body part which could conceivably move under its own motion.

(Base 10, +1 Touch, +2 Sun)

### Blind the Ogling Legion IBG

R: Voice, D: Diameter, T: Group

Causes a large group's eyes to close for the duration of the spell.

(Base 2, +2 Voice, +1 Diameter, +2 Group, +3 larger group up to 10, 000 members)

### The Unwilling Army IBG

R: Voice, D: Diameter, T: Group

The spell allows the caster to control the large scale motions (arms, legs, and head movement) of a very large group of people (up to 100 standard individuals). The targets are controlled by the caster, following simplistic instructions. The targets can only make small scale motions (finger gestures, talking), and suffers a -3 modifier to any of these actions, including spell casting.

Valid commands might be "walk in a circle", "sit down", "walk of that edge", and if the command is completed but the spell still has duration the target gains control again until the caster issues another command. As the duration is Diameter the caster must concentrate to the control over the target's bodies. While the spell is in effect the target cannot be made to make any complex or agile movement such as fighting, dancing, juggling, etc.

(Base 4, +2 Voice, +1 Diameter, +2 Group, +1 for a very large group)

## LEVEL 35

### Conjuring the Deceased Obedient Slave IBG

R: Touch, D: Sun, T: Individual

Requisite: Creo, Mentem

This spell creates a human corpse (up to size +1), animates it, and allows the caster to mentally concentrate to control it's actions. The animation has a dull intellect to act independently, however commands from the caster will be followed unimaginatively. Appearance, size, and condition of the body is chosen by the caster.

(Base 10, +1 Touch, +2 Sun, +1 Mentem requisite, +1 Creo requisite)

### Direct the Flight of Your Flock IBG

R: Touch, D: Concentration, T: Group

The target and his group of traveling companions are raised into the air and fly as one under the control of the caster up to speeds of 40 miles per hour (see "By Will Alone" above). The members of the group must remain together, otherwise the member is removed from the spell's effects; and pray that the Magi's concentration is not disturbed.

(Base 15, +1 Touch, +1 Concentration, +2 Group)

The Walking Servant <sup>IBG</sup>

R: Voice, D: Moon, T: Individual

Requisite: Mentem

Turns a corpse into a nearly mindless servant that can follow your simple verbal commands faithfully but unimaginatively. Unless the corpse is preserved with Charm Against Putrefaction or the equivalent, the body decays normally, but even a skeleton can be animated.

*(Base 10, +2 Voice, +3 Moon, Mentem requisite free)*

## Creo Herbam Spells

### LEVEL 25

#### Conjure the Humble Skiff IBG

R: Touch, D: Sun, T: Individual

This spell conjures a small wooden boat, single sail, and simple running equipment suitable for six travellers and their gear. The boat is shaped from wood rather than built in the mundane manner, so does not require a Terram requisite for nails or pins. This also means that the boat would likely not be as hardy even if the duration were significantly extended.

The spell requires a finesse check to determine the quality of the boat.

*(Base 3, +1 Touch, +2 Sun, +1 increased target size for a small boat, +2 complexity in the finished form)*

### LEVEL 40

#### Conjuration of the Dawn Treader IBG

R: Touch, D: Momentary, T: Individual

Requisite: Terram

This spell permanently creates a large wooden boat, multiple sails, oars, and running gear suitable for fifty travellers and their gear, and requiring a crew of nine to operate properly. The ship will have a sizable cargo hold, multiple decks and internal cabins for crew and guests. The ship is not suitable for travel on small rivers, but may use larger ones. The spell requires a finesse check to determine the quality of the boat.

*(Base 3, +1 Touch, +2 treated and processed Herbam materials, +3 increased target size for a large boat, +2 complexity, +1 Terram requisite)*

### LEVEL 45

#### Conjuration of the Titan's Barge of War IBG

R: Touch, D: Momentary, T: Individual

Requisite: Terram

This spell conjures a permanent monumentally large ship, suitable for transporting incredible amounts of cargo or acting as a vehicle for war.

The ship created is clearly unnatural and fearsome as no ship in history would be even close to this size. The ship is outfitted for war, and contains defensive structures, armaments mounted along the hull, and also a large ram. It is designed with multiple sails, oars, and running gear suitable for its size, and smaller boats to use for short commutes.

Due to how large the ship is a crew will have to learn over many weeks to operate this ship properly. The ship's draft is so deep than it cannot be docked in most ports. The spell requires a finesse check to determine the quality of the boat.

*(Base 3, +1 Touch, +2 treated and processed Herbam materials, +4 increased target size for a large boat, +2 complexity, +1 Terram requisite)*

### LEVEL 50

#### Conjure the Merchant's Dream IBG

R: Touch, D: Moon, T: Individual

Requisite: Terram

This spell temporarily creates a moderate sized wooden boat, one or two sails, oars, and running gear suitable for twenty travellers and their gear, and requiring a crew of four to operate properly.

The ship will have a modest cargo hold and a few small cabins. The ships draft is designed to allow it to sit high on the water, so it may use rivers as well as oceans for travel. The spell requires a finesse check to determine the quality of the boat.

*(Base 3, +1 Touch, +3 Moon, +2 treated and processed Herbam materials, +2 increased target size for a moderate boat, +2 complexity, +1 Terram requisite)*

R: Voice, D: Momentary, T: Part

#### Extract the Essence of Serqet IBG

R: Touch, D: Momentary, T: Individual

Requisite: Animal, Aquam

This spell processes a poisoner's raw ingredients into a near perfect extract. The quality of the final result is determined by a Finesse roll vs 6, where results lower than this amount do not produce an effective poison, and rolls that far exceed it will increase potency. All of the materials for normal processing and steps must be provided for the spell to produce an effective product.

*(Base 3, +1 Touch, +4 reduction of Finesse difficulty by 12, Animal requisite free, Aquam requisite free)*

### LEVEL 25

#### Allay the Buoyant Load IBG

R: Touch, D: Sun, T: Part

#### The Vicious Arrow IBG

R: Touch, D: Momentary, T: Individual

Requisite: Animal, Terram

The spell projects an arrow toward an opponent, inflicting +20 damage. While effective on arrows this effect could project any small object combining wooden, metal, or animal components.

The projectile is accurate to 20 paces and requires a successful Finesse roll to hit the target. As the object is flung by spell rather than guided, the effect is not influenced by Magic Resistance.

The spell grants animation and sentience to an item made of wood.

Items can move as directed and follow the caster's simple commands, but will be confused by complex tasks. Different items can move with various degrees of mobility directly related to how they might utilise their physical form. Chairs can walk well, cupboards less so, and statues with sufficient detail can often move identically to a person.

The spell can be cast on any wooden item up to 10 cubic paces in volume, which allows for animation of very large objects (such as wagons or boats) or massive trees. Casting requisites are required for compound items.

*(Base 10, +1 Touch, +3 Moon, +1 extra size)*

### LEVEL 40

R: Touch, D: Concentration, T: Part

This spell projects magical species at the target seeking to overload their sense of sight. The spell requires no Finesse check to target. The target may be disorientated for up to two minutes after the caster ceases concentrating (see HoH:S 68).

*(Base 2, +1 Touch, +1 Concentration, +1 Part)*

#### Conjuration of the Insubstantial Fleeting Blindfold IBG

*(Base 1, +2 Voice, +1 Diameter, +1 moving image)*

#### Deafen the Surly Turncoat IBG

R: Voice, D: Momentary, T: Individual

This effect creates a momentary explosion of sound which is powerful enough to potentially deafen those close to it. Creature successfully targeted by the caster's Finesse check of 6+ must then pass a Stamina check vs 9+, or they are deafened for approximately two minutes. The effect is perfect for ending conversations with belligerent subordinates.

*(Base 3, +2 Voice)*

#### Discover the Melody of the Absent Minstrel IBG

R: Touch, D: Sun, T: Individual

This spell creates the sound of music, equivalent volume to a speaking person. The style and instruments are chosen when cast, and quality is dependent on a finesse check.

*(Base 1, +1 Touch, +2 Sun, +1 clear music)*

R: Voice, D: Momentary, T: Individual

*(Base 3, +2 Voice)*

#### Speak Through Silent Lips IBG

R: Voice, D: Concentration, T: Individual

Allows the caster to create a speaking voice of their choosing within range and control what it says. The caster is not required to speak each word conjured by the illusion but must maintain concentration.

*(Base 1, +2 Voice, +1 Concentration, +1 intelligible speech)*

#### The Phantom Limb IBG

R: Touch, D: Concentration, T: Individual

This spell creates an illusion of a hand in the correct position for the target that moves appropriately for their actions.

*(Base 1, +1 Touch, +1 Concentration, +1 for a moving illusion, +1 as directed by caster)*

### LEVEL 15

#### Mastery of Thought and Purpose IBG

R: Touch, D: Concentration, T: Individual

When the spell is cast an abstract image forms in front of the caster which they may manipulate using Finesse rolls, while making Concentration rolls. The spell presents a detailed changing image, which tries to resist and contradict the alterations of the caster. Slowly as time progresses the image changes more quickly, and the caster is challenged with controlling the spell for as long as possible.

Unlike practice using normal spells requiring concentration and finesse, this spell is designed to frustrate and challenge the caster. This grants a source quality of 5 for practicing the Finesse and Concentration abilities.

*(Base 1, +1 Touch, +1 Concentration, +1 a moving image, +1 directed by use, +1 which is increasingly complex, +1 seeking to hamper or avoid the caster's intent)*

#### The Harpies Screech IBG

R: Voice, D: Momentary, T: Individual

Requisite: Rego

This effect creates a sound so loud and piercing that it causes disorientation and possibly panic to those who hear it. The caster is protected from the effect by the Rego requisite which protects them from the worst of the effect. Creatures must succeed a Stamina 12+ check are dazed and disorientated. Animals may also be panicked by the effect.

The effect can be heard by anyone who is within range, although a creature's magic resistance must be overcome for the worst of the effects to apply.

This is a debatable aspect of Imaginem magic, which should be discussed before the spell is taken.

*(Base 3, +2 Voice, +1 for a very difficult stam check vs 12 or higher, +1 Rego requisite requisite)*

### LEVEL 20

#### A Crowd Awash in the Splendid Sigil of the Magus IBG

R: Sight, D: Concentration, T: Group

This spell projects magical species at the target group seeking to overload their sense of sight. The spell requires no Finesse check to target. The targets may be disorientated for up to two minutes after the caster ceases concentrating (see HoH:S 68).

*(Base 2, +3 Sight, +1 Concentration, +2 Group)*

#### A Path Clearly Marked, Till Dusk IBG

R: Arcane Connection, D: Sun, T: Individual

This spell creates a visual marker in front of the target indicating the direction and approximate distance to either the caster, or a place or thing for which the caster has an arcane connection. The caster must know this information, and any errors in judgement are carried to the target.

The style of the marker will vary with the caster's sigil. Additional appropriate casting requisites may be required.

*(Base 1, +4 Arcane Connection, +2 Sun, +1 image moves with target)*

## LEVEL 25

*(Base 4, +3 Sight, +1 Concentration, +1 Part)*

### An Imaginary Page IBG

R: Touch, D: Moon, T: Individual

Requisite: Muto, Rego

The virtual paper includes a tactile illusion so that slight resistance is felt by the writer when being changed. When written upon the illusion reacts to the motions of the writing implement, so that ink is not needed to write on the surface.

The illusory pages can be moved about or placed in mid-air, and altered as pleases the writers just like a normal piece of paper. The illusory pages can be created in three sizes: note/palm sized, large book sized, and table sized.

*(Base 2, +1 Touch, +3 Moon, +1 can be moved around, +1 intricate text and drawings, +1 changeable image, Muto requisite free, Rego requisite free)*

## Intellego Imaginem Spells

*(Base 4, +1 Touch, +2 Sun, Creo requisite free)*

#### Eyes and Ears Within IBG

R: Touch, D: Concentration, T: Structure

*(Base 1, +1 Touch, +1 Concentration, +4 Vision, sense)*

## Muto Imaginem Spells

### LEVEL 4

#### Subtlety Walk Between Sunshine and Shade IBG

R: Sight, D: Momentary, T: Individual

The hue of the target's image subtly shifts, to either slightly lighter or duller in a manner similar to cloud passing over an object on a sunny day, or the reverse. The caster may choose which effect at cast time.

*(Base 1, +3 Sight)*

### LEVEL 5

#### Disguise of the Transformed Magus IBG

R: Personal, D: Sun, T: Individual

Changes the way the caster looks, smells, and sounds to almost any desire as long as it is passable as a human.

*(Base 3, +2 Sun)*

#### Reveal the Secrets, with the True Cipher of Trianoma IBG

R: Touch, D: Sun, T: Individual

This effect temporarily decrypts a short coded message using the original Cipher of Trianoma (see HoH: TL, p20-21). The pages are temporarily changed to appear re-ordered as if the cipher was applied. The Cipher is a secret of special members of the House Bonisagus, so this spell is likely to be closely guarded. This effect also uses the original classic prescribed cipher, rather than a variation of it (as mentioned in HoH:TL), so that messages which use a variation would also not be decrypted cleanly.

This spell could equally be applied to a note or text which was not already encrypted with the Cipher of Trianoma, and would render that page into gibberish. Note that the effect does not actually change the text, instead it alters the image temporarily.

*(Base 1, +1 Touch, +2 Sun, +1 for a simple fixed cipher)*

### LEVEL 10

#### Disguise the Words as Written IBG

R: Touch, D: Moon, T: Individual

Allows the caster to change the contents of a letter or document, re-writing the message, changing seals, and altering signatures to create another message. The letter may also be rendered into jibberish. Useful for sending secret messages by mundane means, and also for altering official documentation

*(Base 1, +1 Touch, +3 Moon, +1 very complex image and text)*

#### Illusion of the Undisturbed Grave IBG

R: Touch, D: Moon, T: Individual

This spell makes a large area of ground or flooring look unchanged and like its surroundings, and if cast before an excavation is performed will retain the perfect undisturbed appearance. The caster must succeed a finesse check, particularly to mimic a very specific appearance.

Intended to hide the nighttime activities of grave robbers, the spell will also conceal holes, traps, or significant markings.

*(Base 1, +1 Touch, +3 Moon, +1 size)*

#### Mask the Passage of the Beast IBG

R: Touch, D: Sun, T: Individual

The appearance, smell, and sound of the target animal is altered to be akin to other natural elements in the background, appropriate to where the target is traveling. The target's smell changes to match the ground near them, and their sounds become akin to normal natural parts of the environment. The appearance of the creature is not made invisible, rather it takes on a natural camouflage, using same hues and colors of the environment.

The effect will seem odd if it is used to mask blatant dramatic sounds or smells, or if the target moves quickly as these effects are very unlikely to occur naturally and this will make the target far easier to discern.

*(Base 3, +1 Touch, +2 Sun, smell and sound)*

#### Taste of Anything But This IBG

R: Touch, D: Diameter, T: Individual

A setting's worth of miscellaneous materials looks, tastes, smells, and feels like real food for a short time; exactly as the caster designates.

*(Base 4, +1 Touch, +1 Diameter)*

### LEVEL 15

#### Aura of Ghoulis Malice IBG

R: Voice, D: Sun, T: Individual

The target appears rotting, horrible, and befouled; essentially appearing as if they are the walking dead. Many very obvious changes are made in the subject's appearance, sound, and smell. This includes hallowed eyes, rotting or wounded flesh, pasty skin, gravely and broken voice, moaning, bent posture, and swaying gait.

It is impossible to gain a normal reaction while under the effects of this spell, as the changes are so gross and pervasive.

*(Base 3, +2 Voice, +2 Sun)*

#### Disguise of the Leprous Vagrant IBG

R: Touch, D: Moon, T: Individual

Changes the target's sight, sound and smell images to any almost passable human for the duration of the spell.

*(Base 3, +1 Touch, +3 Moon)*

#### Disguise of the Mischievous Doppelganger IBG

R: Touch, D: Sun, T: Individual

This effects alters the target to an exacting copy of another person.

The target's look, sound, and smell are altered to match; including the target's clothing and equipment. Ideally the person to be copied should be present at the time the spell is cast, or a highly detailed likeness be present.

Like many similar effects the quality of the copy is subject to a Finesse check, with a general target number of 6+ for cursory inspection, 9+ for a fair copy that will pass almost any inspection, through to 12+ for a perfect reproduction. The Finesse check should be modified by the familiarity and knowledge the caster has for the target to be copied, and as this effect is designed to copy a specific target – the caster gains a +3 to the Finesse check if the source for the duplication is present during the casting.

*(Base 3, +1 Touch, +2 Sun, +1 for very high detailed and reliable reproduction)*

#### Gift of the Echoing Voice IBG

R: Touch, D: Concentration, T: Structure

The target's natural speaking voice echos through the target area, sounding as if it is naturally occurring. The sound grows outward from the target, becoming slightly louder, but echoing from all surfaces through the structure.

### LEVEL 30

#### Unravel the Secrets, with Unsurpassed Complexity IBG

R: Touch, D: Sun, T: Individual

Requisite: Intellego, Mentem

The illusion reorders a handful of sample paragraphs of the text until the Intellego component detects a message which the caster understands. Potential results alert the caster by making the page and ring glow when a potential positive translation is found. The caster can then choose to accept the translation, or have the effect continue.

When a positive translation is found the cipher key method is understood by the caster, and the method can be documented.

Note that the effect is not actually trying to resolve using the any ciphers provided to the spell, but instead is using the repetition and the logic presented in the samples to attempt to find meaning within the text.

Within the duration the spell will continue to attempt to break through the message, essentially allowing the investigation to occur far faster than a scholar could perform, and applying multiple cipher keys. Time becomes the limiting factor for this effect to decrypt successfully.

*(Base 1, +1 Touch, +2 Sun, +2 for the use of complex variable ciphers as well as simple, +1 as ciphers supplied when cast, +2 to scale for complexity of 100 different types of ciphers in sequence, +0 for trivial Creo Imaginem glowing effect, Intellego requisite free, +1 Mentem requisite)*

Requisite: Animal, Aquam, Corpus, Herbam, Perdo

This spell accelerates the decomposition of a container or room with wide variety of non-living ingredients within it into a useful compost.

Composting is simple work but lacks appeal often due to the source of the ingredients. The Perdo requisite significantly assists the decomposition in a timely and efficient manner, and also removes undesirable elements permanently.

A finesse check determines the quality of the resulting product, with a 6 or higher producing a passable compost. Botch results may create a useless product or even a compost which is toxic.

*(Base 3, +1 Touch, +2 Room, Perdo requisite free, Corpus requisite free, Herbam requisite free, Animal requisite free, Aquam requisite free)*

#### Deconstruct the Obtrusive Wall IBG

R: Touch, D: Momentary, T: Part

This spell removes, cleans, and stacks Terram based materials from a targeted structure. The spell makes no account for the structural integrity of the affected surface, but will remove the bricks safely and stacks them neatly to the side. A finesse check of 6+ is required to perform the spell neatly and quickly.

*(Base 3, +1 Touch, +1 Part, +1 stone)*

#### Object is Stubborn IBG

R: Touch, D: Sun, T: Individual

The object touched becomes almost immovable, and if moved will seek to return to the spot where it was initially placed. The object can be moved to float in mid air. The spell ends prematurely if the object is moved more than a pace from the position it is placed.

The object can be slowing shifted by an exceptionally strong person or many people (combined strength of greater than +5), or a stronger magical force (higher than Base 3) can move the object very slowly. The force of resistance is equivalent to one horse power.

Casting requisites are required.

*(Base 3, +1 Touch, +2 Sun)*

### LEVEL 15

#### Gather the Unwanted Scraps IBG

R: Sight, D: Momentary, T: Group

Requisite: Animal, Aquam, Corpus, Herbam

This spell collects up to a cubic pace of non-living refuse within the caster's line of sight, scraps, dirt, stones, off-cuts, or other leftovers from the surrounding area which the caster can see and collects them into either a pile or a designated container.

A simple finesse check determines how well the area is swept clean of unwanted materials. As sweeping and cleaning is a rudimentary task the finesse difficulty is 3 or higher. Botch results may be very unsightly.

*(Base 2, +3 Sight, +2 Group, +1 size, Corpus requisite free, Herbam requisite free, Animal requisite free, Aquam requisite free)*

#### Gathering a Bullet by the Bagful IBG

R: Sight, D: Momentary, T: Group

The targeted stones flies to the casters hand, a container, or to a place they designate within sight.

*(Base 3, +3 Sight, +2 Group, +1 for stone)*

### The Never Ending Road IBG

R: Road, D: Momentary, T: Part

This spell targets a point on the road which the caster is in contact with and allows the construction of a continuing piece of roadway, a change, a segway, or an alteration of the road up to the limit of the target size. A finesse check is needed when cast to determine the quality of the spell's work, 6 or higher for dirt, and 9 or higher for stone as building roadways is not complex work. Special structures such as archways or bridges may require 12 or higher, subject to the complexity of the task.

The spell effect draws construction materials available in the target area of the altered section of road, or within a pace of the nearest edge of the road. The spell may also be used for improvement and maintenance on an existing part of a roadway, such as removing obstacles, fixing degradation, or upgrading a section.

Roads made from dirt, clay, or sand can alter up to 100 cubic paces of material, and stone 10 cubic paces. The spell's designer placed any extra materials to be used in the construction by using other spells, or mundane means.

*(Base 3, +2 Road, +1 Part, +1 for extra size)*

### The Unseen Replacement Limb IBG

R: Voice, D: Concentration, T: Individual

This spell can manipulate objects at the caster's desire, acting as a replacement or additional limb.

The new limb has enough strength to pull against a resisting force or other object, with an equivalent strength of +0. The spell's range allows for distant objects to be picked up and brought to the caster.

*(Base 2, +2 Voice, +1 Concentration, +1 additional strength, +1 living and non-living objects)*

## LEVEL 20

### Irritating Storm of Detritus IBG

R: Voice, D: Concentration, T: Group

The spell projects many segments of dirt, sand, dust, mud or other Terram based material, which inflicts no damage, but may confuse, irritate, or perhaps even blind the opponents. The spell is effective on all rudimentary Terram substances.

The caster is surrounded but unaffected by the storm. The dirt is thrown about from the ground rather than propelled by magic, so the spell is not hindered by magical resistance.

The storm extends up to a radius of 20 paces around the caster. Coincidentally the storm may assist with targeting invisible targets, due to the material leaving traces all over them. The spell is little use in clean environments, and may provide partial obscurement in sandy or filthy environments.

*(Base 3, +2 Voice, +1 Concentration, +2 Group)*

### Object is Immovable IBG

R: Touch, D: Moon, T: Individual

The object touched becomes almost immovable, and if moved will seek to return to the spot where it was initially placed. The object can be placed to float in mid air. The spell ends prematurely if the object is moved more than a pace from the position it is placed.

The object can be slowing shifted by an exceptionally strong person or many people (combined strength of greater than +50), or a stronger magical force (higher than Base 4) can move the object very slowly. The force of resistance is equivalent to ten horse power.

Casting requisites are required.

*(Base 3, +1 Touch, +3 Moon, +1 for increased strength)*

### Skipping Down the Road IBG

R: Road, D: Momentary, T: Individual

Instantly teleports the target of the spell 500 paces in a direction chosen by the caster.

If the item chosen is not Terram based then additional appropriate casting requisites are needed. The object to be teleported must be present upon the road.

*(Base 10, +2 Road)*

### The Walking Statue IBG

R: Voice, D: Concentration, T: Individual

Requisite: Muto

Animate a stone statue to move as you direct. A statue is very clumsy but also very strong. Its combat statistics are Initiative -2, Attack +5, and Damage +6. While animated it is immune to most weapons but heavy, blunt weapons may be able to damage it at the storyguide's option (its suggested Defense is +1 and its Soak, +12).

Besides fighting, the statue can be a useful servant. It is tireless and very strong. It is immune to hazards like poison and fire, so some magi use animated statues to perform certain laboratory work. When the spell ends, the statue freezes into its current position, which may be different from its original position.

*(Base 3, +2 Voice, +1 Concentration, +1 affect stone, +1 precise control, +1 Muto requisite)*

## LEVEL 25

### Stones as Insects IBG

R: Touch, D: Sun, T: Group

The stone materials touched are made to float around the caster in fluctuating rotating pattern for the spells duration. Up to 1 cubic pace of materials may be affected by each casting.

*(Base 3, +1 Touch, +2 Sun, +2 Group, +1 for stone)*

### The Vicious Projectile IBG

R: Touch, D: Momentary, T: Individual

This effect hurls a stone in a manner identical to Invisible Sling of Vilano, with the force of the projectile increased to inflict +20 damage. The stone is accurate to 20 paces and requires a successful Finesse roll to hit the target. As the stone is flung by spell rather than guided, the effect is not influenced by Magic Resistance.

*(Base 20, +1 Touch)*

## LEVEL 30

### Portentous Levitation of the Mighty Obelisk IBG

R: Sight, D: Concentration, T: Group

Move an exceptionally large volume of stone as directed by the caster. A single block of up to 10 cubic paces in volume, or any smaller combination of stones may be moved, with the massive blocks moving at walking pace and smaller blocks moving as fast as a bird flies. The spell's normal behavior is to float the mass a pace above the ground so that it follows behind the caster for the spell's duration, and the stones will do so unless controlled otherwise. The effect can be used to make the stone float high into the air up to the range of the spell.

When the effect is cancelled the stone will be have naturally, which may be used as a targeted attack using Finesse to crush a target. Dropping the stone or cancelling the spell above a target may crush them, inflicting +5 for a fist sized rock, +10 for a building stone, +21 for a large boulder, and up +35 for a massive obelisk or a massive volume of rocks.

A successful Finesse roll is required to strike a target. Particularly large blocks or a large number of blocks will be easier to target, and can inflict structural damage to buildings. It may however take more than one combat round to place the blocks above a target. The sheer volume of rock moved with the spell could also lift small modest sized stone dwellings from the ground, or slowly tear walls apart.

*(Base 3, +3 Sight, +1 Concentration, +2 Group, +1 affect stone)*

## LEVEL 35

### The Bonded Road IBG

R: Road, D: Momentary, T: Individual

Targets an item from a road and teleports that item to the caster, or to another location to which the caster has an arcane connection, so the item can be used as an Arcane Connection to the place it was drawn from.

If the item chosen is not Terram based then additional appropriate casting requisites are needed. The object to be teleported must be present upon the road.

*(Base 25, +2 Road)*

### The Chaotic Storm of Stone IBG

R: Voice, D: Momentary, T: Group

The spell animates up to 100 pebble or bullet sized stones, and causes them to fly about randomly, in an area of effect shape determined by the caster (an arc, square, etc).

The area uses the caster's voice as a practical size limit, typically a 20 pace radius at round the caster.

The stones are flung about by the spell in a manner akin to The Invisible Sling of Vilano.

The number of potential targets is limited by the volume of stones present, each being targeted by a stone in the storm suffers +10 damage.

The spell design allows the caster to never be directly targeted by any of the stones, so they may stand unharmed.

*(Base 10, +2 Voice, +2 Group, +1 size of Group)*

### The Incredulous Highwayman IBG

R: Road, D: Momentary, T: Individual

Instantly teleports the target of the spell one league a direction chosen by the caster. The spell design allows for large items.

If the item chosen is not Terram based then additional appropriate casting requisites are needed. The object to be teleported must be present upon the road.

*(Base 15, +2 Road, +1 for size of target, +1 for more complex materials in the form)*

### The Vicious Blade IBG

R: Touch, D: Momentary, T: Individual

Requisite: Animal

This spell projects an moderate sized metal object toward an opponent, inflicting +20 damage. While effective on daggers and darts, this effect could project any moderate sized object combining metal or animal components.

The projectile is accurate to 20 paces and requires a successful Finesse roll to hit the target. As the object is flung by spell rather than guided, the effect is not influenced by Magic Resistance.

*(Base 20, +1 Touch, +2 affect metal, Animal requisite free)*

## LEVEL 40

### The Animated Statue, of Stone IBG

R: Voice, D: Moon, T: Individual

Requisite: Mentem, Muto

This effect animates a stone statue so it can move and grants the statue a basic form of intelligence, akin to that of a dull human. A statue is clumsy but also very strong. Its combat statistics are Initiative -2, Attack +5, and Damage +6. While animated it is immune to most weapons but heavy, blunt weapons may be able to damage it at the storyguide's option (its suggested Defense is +1 and its Soak, +12).

When the spell expires, the statue freezes into its current position.

*(Base 3, +2 Voice, +3 Moon, +1 affect stone, +1 precise control, +1 Muto requisite, +1 Mentem requisite)*

## LEVEL 45

### The Animated Statue, of Bronze IBG

R: Voice, D: Moon, T: Individual

Requisite: Mentem, Muto

This effect animates a bronze statue so it can move and grants the statue a basic form of intelligence, akin to that of a dull human. A statue is clumsy but also very strong. Its combat statistics are Initiative -2, Attack +5, and Damage +6. While animated it is immune to most weapons but heavy, blunt weapons may be able to damage it at the storyguide's option (its suggested Defense is +1 and its Soak, +12).

When the spell expires, the statue freezes into its current position.

*(Base 3, +2 Voice, +3 Moon, +2 affect metal, +1 precise control, +1 Muto requisite, +1 Mentem requisite)*

## LEVEL 50

### The Ungodly Projectile IBG

R: Touch, D: Momentary, T: Individual

This effect hurls a stone in a manner identical to Invisible Sling of Vilano, with the force of the projectile increased to inflict +45 damage. The stone is accurate to 20 paces and requires a successful Finesse roll to hit the target. As the stone is flung by spell rather than guided, the effect is not influenced by Magic Resistance.

*(Base 45, +1 Touch)*

## Muto Vim Spells

### GENERAL

#### Inhibit the Egregious Deviations of the Warp <sup>IBG</sup>

R: Touch, D: Momentary, T: Individual

This spell alters the target spell so that it is considered tailored for its target for the purposes of any warping it may cause. This spell may alter any effect which is equal to the Muto Vim spell's level.

*(Base effect)*

#### Inhibit the Prolonged Deviations of the Warp <sup>IBG</sup>

R: Touch, D: Moon, T: Individual

The spells altered by this effect will decrease their effective level of power with regard to the calculations for warping over time. This spell may alter any effect which is equal to the Muto Vim spell level less three magnitudes (spell level -15).

The effective power level of any affected spell is halves for the purposes of calculating Warping. For the Warping mitigation to be effective the target spell must be altered successfully each time it is recast over the duration.

This may alter the effective warping applied over time from High Power to Low Power (from 1, +1 warp/year +1/season, down to just 1/year) if it reduces the target effect below level 30, see Warping in ArM p168.

*(Base effect)*

#### Inhibit the Selfish Deviations of the Warp <sup>IBG</sup>

R: Voice, D: Momentary, T: Individual

This spell alters the target spell so that it is considered tailored for the caster, as if the target spell was designed for the caster to not cause warping. This spell may alter any effect which is equal to the Muto Vim spell level less one magnitude (spell level -5). It is designed with Range Voice because it must be cast cooperatively with another wizard to limit the warping effects of their spells.

*(Base effect)*

## Perdo Vim Spells

### GENERAL

#### Breath of Mundane Silence IBG

R: Voice, D: Momentary, T: Individual

Cancels a single spell if its level is less than half the level of this spell + 10 + stress dice.

*(Base effect)*

#### Return to the True Form of Man IBG

R: Personal, D: Momentary, T: Individual

This effect returns the target to their humanoid natural form, ending any magical or supernatural transformation effects including Hermetic Muto Corpus related spells. The target effect is cancelled if it is equal to or less than the (level of this Perdo Vim spell + 20 + stress die (no botch)).

This spell will also end a shape-shifter's transformation or non-hermetic effects, but cannot affect Heart Beast transformation effects of a Bjornaer Magus.

*(Base effect)*

#### Unraveling the Fabric of My Own Art IBG

R: Voice, D: Momentary, T: Individual

Cancels another of the caster's spells if its level is less than level of this spell + 10 + stress dice.

*(Base effect)*

## Rego Vim Spells

### GENERAL

#### Opening the Mystical Roadway <sup>IBG</sup>

R: Arcane Connection, D: Concentration, T: Individual

This effect establishes a mystical connection to a Roadway to which the caster has an Arcane Connection. Spells cast through this mystical tunnel must still be cast using the Range: Roadway parameter (an aspect of the Faerie Magic virtue), and may not be higher level than this spell.

*(Base effect)*

#### Opening the Mystical Waterway <sup>IBG</sup>

R: Arcane Connection, D: Concentration, T: Individual

This effect establishes a mystical connection to a Waterway to which the caster has an Arcane Connection. Spells cast through this mystical tunnel must still be cast using the Range: Waterway parameter (an aspect of the Atlantean virtue), and may not be higher level than this spell.
